

Ibtehaj Uddin Ahmed Siddiqui

House no: R 636 Sector 7D-3 North Karachi, Shadman Town.

Education

- **Bachelor of Science in Electronics Engineering, Sir Syed University of Engineering and Technology (2019 - 2023)**
-Gained comprehensive knowledge and practical skills in electronics engineering, including circuit design, signal processing, and electronic systems integration.
- **Diploma of Associate Engineering (DAE) in Instrumentation and Process Control, Pak Swiss Training Centre (2015 - 2017):**
-Developed a solid foundation in instrumentation principles and process control techniques, honing my abilities to analyze, troubleshoot, and optimize industrial processes.
- **Matriculation, Karachi Public High School (2013)**
-Acquired a strong academic background, laying the groundwork for continued educational and professional advancement.

Professional Summary

- - Performed motor maintenance to ensure efficient operation and minimize downtime.
- - Conducted electrical panel troubleshooting and resolved faults to maintain system reliability.
- - Carried out preventive and corrective maintenance of industrial machines.
- - Maintained and serviced LT panels for optimal performance. Monitored and optimized power factor to improve energy efficiency.
- - Kept detailed records of machine performance and maintenance activities.
- - Worked collaboratively with the technical team to ensure smooth operations.
- - Diagnosed and resolved technical issues to prevent disruptions.
- - Interpreted and worked with electrical drawings for installations and repairs.

Experience

- **Kohinoor Battery Manufacturer (Pvt). Ltd.** 17 june 2023 - Present
ASSISTANT ELECTRICAL ENGINEER
 - Actively contribute to the design, testing, and maintenance of electrical systems and equipment, ensuring compliance with industry standards and specifications.
 - Collaborate with cross-functional teams to identify opportunities for process optimization and efficiency improvements, driving continuous innovation and excellence.
 - Participate in the development and implementation of preventive maintenance programs, minimizing downtime and maximizing operational reliability.
 - Provide technical support and troubleshooting expertise to address complex electrical issues, fostering a culture of excellence and continuous improvement.

Skills

- **Leadership and Management Decision Making:**
 - Demonstrated ability to lead teams, make informed decisions, and effectively manage projects to successful completion.
- **Positive Attitude and Behavior:**
 - Known for maintaining a positive outlook, fostering collaborative relationships, and promoting a supportive work environment conducive to productivity and innovation.
- **Car Accidental and Monitoring Parameters System using IoT:**
 - Spearheaded the development of a sophisticated system aimed at preventing car accidents through real-time monitoring and analysis of critical parameters. Implemented safety features and integrated image processing functionality to enhance overall effectiveness and reliability.
